Under current law, DNR administers a program (known as the targeted runoff management program) to provide financial assistance for projects to reduce nonpoint source water pollution (that is, pollution from diffuse sources) in areas that are targeted due to surface water quality problems. This bill increases the authorized general obligation bonding authority for the targeted runoff management program by \$7,000,000.

Under current law, DNR also administers programs to provide financial assistance for the management of urban storm water runoff and for flood control and riparian restoration projects. This bill increases the general obligation bonding authority for these programs by \$6,000,000.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
